MS Petition

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

**REQUEST FOR RECONSIDERATION OF
PETITION TO ACCORD STATUS UNDER 37 CFR § 1.47(b)**

PC/RC Products, L.L.C. respectfully requests the Commissioner for Patents to reconsider its Petition to Accord Status under 37 CFR § 1.47(b) filed January 28, 2005 for the present application. In the decision dismissing the petition, the Petitions Attorney stated that the petition did not include proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration.

With this Petition, please find the declaration of the under-signed attorney stating that the inventor has been contacted, provided a copy of the application and declaration and has responded by refusing to sign the declaration, except upon further conditions. Specifically, the inventor has required that property that belongs to the assignee of the present invention be transferred to his employer, a competitor of the assignee of the present invention. The inventor is under a belief that the property belongs to his employer. Regardless, even if the inventor were correct (which he is not), requiring transfer of property based upon rights of a third party as a condition for signing is not a valid basis for his refusal.

The Assignment signed by the inventor and recorded with the PTO requires him to "execute such further applications, powers of attorney, assignments and other documents as may

be necessary or desirable to effectuate this agreement." Therefore, his imposition of further conditions is a violation of his legal obligation to execute the declaration.

Therefore, PC/RC Products submits that the present request for reconsideration places the petition in order for granting and respectfully requests the same.

The Commissioner is hereby authorized to charge any additional required fees under 37 CFR 1.16 and 1.17 that may be required by this paper to Deposit Account 162201.
